AIR/MILITARY

Landing ground at ZOSSEN (10 Aug 57)

1. Attached at Appendix "A" is a sketch shewing the location of a landing ground at present in use near ZOSSEN. The runway is approx 1 km in length and 50-60 m in breadth and is constructed from PSP.
2. There are no hangars on the landing ground but one large barrack block measuring 10 x 50 m has been constructed to house flying personnel and a construction unit.
3. At the point marked "X" on Appendix "A", there is an aerial array constructed on a wooden platform. Sketches of this array are given at Appendix "B". From the location of this aerial array, overland cables run to the T-shaped building in the STAMMLAGER, ZOSSEN.
